CORONAVIRUS SAFEGUARDING

**BARRIERS, GUARDS
& GRAPHICS**

SAFEGUARDING

To reduce the spread of the virus, to protect ourselves and to safeguard our clients we are introducing a range of effective defences.

All barriers and guards are manufactured and fabricated using Fire Rated PETG, exceptional sustainable food guarding, with a high level of chemical resistance, it lends itself perfectly for use within the catering sector.

Protecting our workforce can be implemented using a more relaxed affordable Acrylic or PVC product. Office based screens and desk barriers do not carry a Fire Rating or sustainable accreditation.

Adhering to social distancing can be implemented by using floor graphics for wayfinding purposes, using a PVC free durable and long lasting fabric backed vinyl product. Fire Rated and 100% sustainable with a bespoke design service also available.

Advice

Social Distancing Outside

Spending time outdoors is good for our health.
But social responsibility is essential for ALL our health.

Avoid

close contact
with others

Distance

yourself at least
2 metres (6 feet) away
from other people

Small group

sizes should be kept
to a minimum

Don't arrange
to meet up with other
groups

Avoid

an area if it looks
very busy and go
somewhere else
for your walk
